## **Christiana Campaign Continues to Gain Momentum, Endorsements** *Topper latest to announce support*

**HOUSTON, PA** – Continuing to gain momentum in the race to defeat incumbent Sen. Bob Casey, Jr., U.S. Senate candidate Jim Christiana today announced an endorsement from State Rep. Jesse Topper (R-Bedford/Franklin/Fulton). Topper announced his support at the Fulton County republican dinner:

“Jim is one of the hardest working people I know. His blue-collar upbringing has helped him to be an effective voice for the people, who isn’t afraid to roll up his sleeves and tackle even the most complex issues.

“From fighting tax hikes to finding competitive ways to lure job-creating companies to our state, Jim can take the problems we face and offer unique solutions while remaining keenly focused on what the people of Pennsylvania need.

“We have too many ineffective elected officials in Washington who lack the courage to make the tough decisions or are too easily swayed by special interests. If you look at his record of conservative leadership in Harrisburg or simply spend 10 minutes talking to him about the issues we face, it’s obvious Jim is the most qualified candidate for the job.

“As his record proves, Jim will fight for our families, freedoms and the principles that make America the greatest nation in world. Unlike Bob Casey, he isn’t a Washington insider who puts his own interests above America’s interests.”

**###**

### **BACKGROUND:**

- Christiana’s legislative resume is filled with major accomplishments like PennWATCH, school choice initiatives, and economic growth. These accomplishments are a stark contrast to Bob Casey Jr.’s empty legislative resume.
- Jim Christiana has a proven commitment to less government and more freedom for Americans. If nominated, he will fight to undo the damaging taxes and regulations imposed by the Obama-Casey era.
- In the most politically polarizing of times, Christiana has shown a solid ability to bring various opinions and interests together to establish common ground and agreement. He will teach Washington that to bring about real and constructive change, we need to talk about where we agree, not disagree.
